ELSEVIER

Protein Structure & Molecular Enzymology

Vol. 1338, 1997

BIOCHIMICA ET BIOPHYSICA ACTA
BBA

Cumulative Contents

BBA is cited in: Current Contents Life Sciences - Biological Astracts - Chemical Abstracts - Index Chemicus - CSA Abstracts - Excerpta Medica (EMBASE) - Reference Update - Current Awareness in Biological Sciences (CABS)

Information for Contributors vii

Short sequence-papers

Characterization of the gene encoding manganese peroxidase isozyme 3 from *Phanerochaete chrysosporium*
M. Alic, L. Akileswaran and M.H. Gold (USA) 1

Isolation and comparison of rat cDNAs encoding Ca^{2+}/calmodulin-dependent protein kinase I isoforms
H. Yokokura, O. Terada, Y. Naito and H. Hidaka (Japan) 8

Regular papers

Structure of pressure-induced denatured state of human serum albumin: a comparison with the intermediate in urea-induced denaturation
N. Tanaka, H. Nishizawa and S. Kunugi (Japan) 13

Purification and characterization of pig inter-α-inhibitor and its constitutive heavy chains
O. Carrette, C. Mizon, P. Sautière, R. Sesboüé and J. Mizon (France) 21

Activation of spinach chloroplast fructose-1,6-bisphosphatase by monovalent cations
Y. Chen and G.-j. Xu (China) 31

Denaturation by guanidinium chloride of dimeric MM-creatine kinase and its proteinase K-nicked form: evidence for a multiple-step process
E. Clottes, C. Leydier, F. Couthon, O. Marcillat and C. Vial (France) 37

Purification and characterization of a novel cytosolic NADP(H)-dependent retinol oxidoreductase from rabbit liver
D.-Y. Huang and Y. Ichikawa (Japan) 47

Analysis of poly(ADP-ribose) glycohydrolase activity in nuclear extracts from mammalian cells
R. Bernardi, L. Rossi, G.G. Poirier and A.I. Scovassi (Italy, Canada) 60

Non-specific helix-induction in charged homopolypeptides by alcohols
A.I. Arunkumar, T.K.S. Kumar and C. Yu (Taiwan) 69

Mobility of norbornane-type substrates and water accessibility in cytochrome *P*-450_{cam}
H. Schulze, G. Hui Bon Hoa and C. Jung (Germany, France) 77

Functional and structural comparison of nitric oxide reductases from denitrifying fungi *Cylindrocarpon tonkinense* and *Fusarium oxysporum*
N. Toritsuka, H. Shoun, U.P. Singh, S.-Y. Park, T. Iizuka and Y. Shiro (Japan) 93

Isolation and identification of a proteinase from calf thymus that cleaves poly(ADP-ribose) polymerase and histone H1
K.G. Buki, P.I. Bauer and E. Kun (USA) 100

A chemometric analysis of the resonance Raman spectra of mutant carbonmonoxy-myoglobins reveals the effects of polarity
C.L. Anderton, R.E. Hester and J.N. Moore (UK) 107

Activity of L-phenylalanine ammonia-lyase in organic solvents
D.G. Rees and D.H. Jones (UK) 121

Diffusion coefficients of oxygen and hemoglobin measured by facilitated oxygen diffusion through hemoglobin solutions
S.Th. Bouwer, L. Hoofd and F. Kreuzer (The Netherlands) 127

Complete amino-acid sequence of PD-S2, a new ribosome-inactivating protein from seeds of *Phytolacca dioica* L.
F. Del Vecchio Blanco, A. Bolognesi, A. Malorni, M.J.W. Sande, G. Savino and A. Parente (Italy) 137

Retraction letter

Retraction of the article 'Purification and immunological characterization of DNA polymerase-α from human acute lymphoblastic leukemia cells' [Biochim. Biophys Acta 745 (1983) 154–161]
F.A. Siddiqui (USA) 145

Corrigendum

Corrigendum to 'Cloning of a *secA* homolog from *Streptomyces lividans* 1326 and overexpression in both *S. lividans* and *Escherichia coli*' [Biochim. Biophys. Acta 1296 (1996) 9–12]
M. Gilbert, S. Ostiguy, D. Kluepfel and R. Morosoli (Canada) 146

Information for Contributors *vii*

Rapid report

Catalysis of the refolding of urea denatured creatine kinase by peptidyl-prolyl *cis-trans* isomerase
H.-P. Yang, H.-N. Zhong and H.-M. Zhou (China) 147

Short sequence-papers

The nitrate reductase gene isolated from DNA of cultured spinach cells
N. Tamura, H. Takahashi, G. Takeba, T. Satoi and H. Nakagawa (Japan) 151

Schistosomes express two forms of cathepsin D
J.Y.M. Wong, S.A. Harrop, S.R. Day and P.J. Brindley (Australia) 156

Review

The application of circular dichroism to studies of protein folding and unfolding
S.M. Kelly and N.C. Price (UK) 161

Regular papers

Thermodynamic analysis of the stabilisation of pig heart mitochondrial malate dehydrogenase and maize leaf phospho*enol*pyruvate carboxylase by different salts, amino acids and polyols
W.A. Jensen, J. McD. Armstrong, J. De Giorgio and M.T.W. Hearn (Australia) 186

The effects of imidazole binding on the conformation of cytochrome *c*
G. Liu, Y. Chen, W. Shao, J. Lu and W. Tang (People's Republic of China) 199

Identification of the cleavage sites of transforming growth factor α by insulin-degrading enzymes
F.G. Hamel, B.D. Gehm, M.R. Rosner and W.C. Duckworth (USA) 207

Cysteine-286 as the site of acylation of the Lux-specific fatty acyl-CoA reductase
C.Y. Lee and E.A. Meighen (Canada) 215

Monofunctional domains of formiminotransferase-cyclodeaminase retain similar conformational stabilities outside the bifunctional octamer
L.L. Murley and R.E. MacKenzie (Canada) 223

Targeted delivery of human neurofibromin and c-Raf-1 mutants to the cytoplasmic membrane by use of the influenza virus hemagglutinin
M.S.A. Nur-E-Kamal, H. Reverey, E. Ponimaskin, B. Schroth-Diez, A. Herrmann and M.F.G. Schmidt (Germany, United Arab Emirates) 233

A N^{α}-acetyltransferase selectively transfers an acetyl group to NH_2-terminal methionine residues: purification and partial characterization
F.-J.S. Lee, L.-W. Lin and J.A. Smith (USA, Taiwan) 244

Influence of freeze-concentration effect on proteinase-catalysed peptide synthesis in frozen aqueous systems
G. Ullmann, M. Haensler, W. Gruender, M. Wagner, H.-J. Hofmann and H.-D. Jakubke (Germany) 253

Functional interaction between amino-acid residues 242 and 290 in cytochromes *P*-450 2B1 and 2B11
G.R. Harlow, Y.A. He and J.R. Halpert (USA) 259

Mouse thymidine kinase stability in vivo and after in vitro translation
W. Mikulits, M. Knöfler, P. Stiegler, H. Dolznig, E. Wintersberger and E.W. Müllner (Austria) 267

Probing the cysteine 34 residue in human serum albumin using fluorescence techniques
R. Narazaki, T. Maruyama and M. Otagiri (Japan) 275

X-ray absorption and resonance raman spectroscopy of human myeloperoxidase at neutral and acid pH
K.T. Yue, K.L. Taylor, J.M. Kinkade Jr., R.B. Sinclair and L.S. Powers (USA, Peoples' Republic of China) 282

Cloning and characterization of a microsomal aminopeptidase from the intestine of the nematode *Haemonchus contortus*
T.S. Smith, M. Graham, E.A. Munn, S.E. Newton, D.P. Knox, W.J. Coadwell, D. McMichael-Phillips, H. Smith, W.D. Smith and J.J. Oliver (UK, Australia) 295
